

10.1" Dual Rack-mount Monitor

User Manual

Forward

Thank you for purchasing our 10.1-inch dual Rack-mount monitor. Please read this manual carefully before using the unit. Have a great experience!

Cautions

1. Please avoid drop onto the ground and lead to the device broken when move the product.
2. The screen of this product is made of glass, please keep away from injury if the screen is broken.
3. Keep the product away from the heat source. Avoid the prolonged exposures to the sun as the LCD screen will be damaged.
4. To avoid damaging the product, please do not take apart or repair the unit by yourself without the adjustable components in the unit.
 - To protect the screen or housing better, please follow these ways as below to avoid the damages:
Please refrain from using the hard objects to hit the screen
Please do not force to wipe the screen or housing
Please do not use the chemical solutions to clean the screen or housing
Please do not spray any detergent on the screen or housing
Please do not write on the screen directly
Please do not stick anything on the screen or housing
Please simply wipe with a clean soft cloth and make sure no water on the screen or housing

Key Features

- ◆ Dual 10.1-inch full HD 1920x1200 IPS
- ◆ 4RU rack mount design, suitable for news production, post production, and broadcasting trucks, special vehicles video surveillance and other fields
- ◆ Flexible and intuitive button operation
- ◆ New menu interface, software function iconized
- ◆ Accurate full waveform analysis and monitoring
- ◆ Supports 3D LUT Log to REC.709 and user 3D LUT upload (up to 32)
- ◆ With Vector, Histogram, False Color, Monochrome etc. functions, can help you accurately exposure and focus every shot.
- ◆ Front panel stereo earphone output.
- ◆ Equipped with HDMI, SDI(optional), CVBS inputs and outputs, meet different needs
- ◆ Remote control the monitor menu and functions through Ethernet connection

1. Product Description

1.1 Front Panel Feature

| | | |
|---|------|-------------------------------------------------|
| ① | / | Tally indicator |
| ② | ⊕ | Standby power on/off key |
| ③ | F2 | Custom function shortcut button |
| ④ | F1/↶ | Custom function shortcut button; Menu return |
| ⑤ | ↖/↑+ | Previous item selection/parameters increasing |

| | | |
|---|-------------|-----------------------------------------------------------------------------------------------------------------------------|
| | | after enter the menu; Volume increasing adjustment when menu without display |
| ⑥ | ▼ / ▷ | Next item selection/parameters decreasing after enter the menu; Volume decrease adjustment when menu without display |
| ⑦ | MENU | Main menu , enter/confirm |
| ⑧ | MODE | Input signal selection and confirm |
| ⑨ | 🎧 | Earphone jack port |

1.2 Rear Panel Features

| | | |
|----------|----------------------|----------------------------------------------------------------------------------------------------|
| ① | / | DC 12V Power Input |
| ② | / | 4-pin XLR DC12V power input |
| ③ | 3G/SDI (optional) | IN (SDI serial data input) OUT(SDI serial data output) |
| ④ | CVBS | IN(Composite video broadcast signal input) OUT(Composite video broadcast signal output) |
| ⑤ | AUDIO | L(Audio signal left stereo input) R(Audio signal right stereo input) |
| ⑥ | HDMI | IN(High definition multimedia interface input) OUT(High definition multimedia interface output) |
| ⑦ | USB | Firmware update,LUT file importing port |
| ⑧ | LAN IN | Ethernet LAN Connector |
| ⑨ | TALLY | TALLY indicator input port |

1.3 Power Input Way

There are two ways of power supply to our monitor:

A. The direct plug-in DC power input port supply. Please use DC5.5*2.1m DC power plug, power input polarity as shown

below:

- —  — +

Please use the qualified power supply with output power no less than 24W DC 9-24V.

B. Via 4 pin XLR interface power supply.

Polarity of the 4-pin XLR power input as shown below, please note the polarity of the power input, otherwise it may damage monitor.

| Pin number | Signal |
|------------|---------------|
| 1 | GND |
| 2 | No connection |
| 3 | No connection |
| 4 | +12V |

1.4 TALLY Indicator Connection

| Indicator Color | Pin Connection | |
|-----------------|----------------|----------|
| | 1 Screen | 2 Screen |
| Green | 1-5 | 3-8 |
| Red | 6-5 | 4-8 |
| Yellow | 9-5 | 7-8 |

GND port 5 and 8 is sharing

2. Ethernet Connection

Our monitor is equipped with Ethernet interface, and users can connect the PC with our monitor through the Ethernet port. Users can use the software to control the monitor and send their control and command to the specific monitor, as follows:

Connect the LAN port on the back of the monitor to the network. After connection, the monitor will display the same IP address with that device.

Get the control software: Download from the details page of D101PLUS or D101PLUS-H from website www.feelworld.cn

Then, Input:

Username: admin

Password:123456,

Click Login In

After login in, Click: Add monitor

Input IP address (The same as the IP address displayed on the

monitor.)

Select the controlled monitor (number 0 control left monitor,
number 1 control right monitor)

Check: Connection Status,

If connected, the IP address will be displayed. e.g:

Connection Status: connect: 192.168.2.235

Then users can click the corresponding control bar to control and command the parameters:

Control:

Function1:

Function2:

3. Menu Function Instruction

Functional Assist

| | |
|------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  All Waves | On, Off After turning on, waveform, vector, histogram and embedded audio will be shown. |
|  Waveform | On, Off Mode : RGB, YUV, Y This essential feature assists with the calibration of professional video cameras. It shows the overall brightness of the image assisting the video professional in correcting |

| | |
|-------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <p>exposure. The waveform feature also checks the evenness of the lighting when lighting a chromakey or background.</p> <p>Waves Trans. : Off, 25%, 50%, 75%</p> |
|  Vector | <p>On, Off</p> <p>shows how saturated the image is and where the pixels in the image land on the color spectrum.</p> |
|  Histogram | <p>On, Off</p> <p>Mode: RGB1, RGB2, Y</p> |
|  Focus Assist | <p>On, Off</p> <p>Color : (Red, Green, Blue)</p> <p>Peaking Level :you can adjust the peaking level after turning on (1 ~ 10)</p> |
|  Embedded Audio | <p>On, Off</p> <p>The Audio Level Meters provide numerical indicators and headroom levels. The audio meter is green, and will turn yellow when exceeds -20dB, and turn red when exceeds -9dB.</p> |
|  Over Exposure | <p>On, Off</p> <p>Exposure Level : you can adjust the exposure level after turning on (10~100)</p> |
|  Check Field | <p>On, Off</p> <p>Mode : Red, Green, Blue, Mono</p> |
|  False Colors | <p>On, Off</p> |
|  Time Code (Only under SDI signal) | <p>On, Off</p> <p>Mode: LTC, VITC</p> |

Mark

| | |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Nine Grid | On, Off Color: Red, Green, Blue, Black, White, Gray |
| Safe Frames | On, Off Mode: 80%, 85%, 90%, 93%, 96%, 2.35:1 Color: Red, Green, Blue, Black, White, Gray |
| Center Marker | On, Off Color : Red, Green, Blue, Black, White, Gray |
| Ratio Marker | On, Off Mode: 4:3、13:9、14:9、15:9、16:9、1.85:1、2.35:1 Color: Red, Green, Blue, Black, White, Gray Modified Mark : 0~5 |

Display

4. Support Signal Formats

| Signals | Support signal formats |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Video | PAL/NTSC auto recognize |
| HDMI | 480i/576i/480p/576p 720p (60/59.94/50/30/29.97/25/24/23.98) 1080i (60/59.94/50) 1080p (60/59.94/50/30/29.97/25/24/23.98) 3840×2160p (60/50/30/29.97/25/24/23.98) 4096×2160p (60/50/30/29.97/25/24/23.98) |
| SDI | 720p (60/59.94/50/30/29/25/24/23.98) 1080i (60/59.94/50) 1080p(60/59.94/50/30/29.97/25/24/24sF/23.98/23.98sF) |

5. Parameters

| | |
|--------------|-----------------------|
| Panel Size | 10.1" IPS LCD×2 |
| Resolution | 1920 × 1200 pixels |
| Dot Pitch | 0.1128(H)×0.1128(V)mm |
| Aspect Ratio | 16:10 |
| Brightness | 500 cd/m ² |
| Contrast | 1500:1 |

| | |
|---------------------|--------------------------------------------------|
| Viewing Angle | 80°/80°(L/R) 80°/80°(U/D) |
| Backlight | LED |
| Input Voltage | DC 9~24V |
| Input Signal | 3G-SDI (optional), HDMI, Video, Audio(L/R) |
| Output Signal | 3G-SDI (optional), HDMI, Video, Stereo Headphone |
| Power Consumption | ≤ 24 W |
| Special Function | TALLY indicator |
| Working Temperature | - 10~60°C |
| Storage Temperature | - 30~70°C |
| Unit Size | 482x177x25 mm |
| Unit Weight | ≈2048g |

6. Trouble Shooting

If there is any problem when using the unit, please try following ways to inspect and solve. Please contact us if you still can not solve it or have other problems.

• Without image display

Trouble shooting

| | |
|------------------------------------------|------------------------------------------------------------------------|
| ◆ Video cable off or connect incorrectly | Check the quality of the cable, make sure the correct input interface |
| ◆ Without video signal input | Check the signal source and output interface connect is correct or not |

| | |
|-----------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| ◆ Monitor is not be powered on | Check whether the power is connected, click “  ” button to confirm. |
| ◆ Supply voltage instability | The power adapter plug is poor connected with the socket |
| ◆ self-contained power supply, polarity connect inversely | Reference "Power Input Way" and reconnect |

• **Image/color display abnormal**

Trouble shooting

| | |
|---------------------------------------------------|---------------------------------------------------------------------------|
| ◆ Video cable poor contact | Change the video cable, try again |
| ◆ Video signal interfered by external environment | Move to another environment to try again |
| ◆ Video input signal amplitude too low | Check signal source video output, or change signal source and have a try. |
| ◆ Menu color saturation adjustment closing | Enter menu to check color, or reset to factory settings |
| ◆ Check Field set in mono or black & white | Reset Check Field, back to the color |
| ◆ Image deformation | Reset the image ratio |

• **Earphone without sound**

Trouble shooting

| | |
|------------------------------------------|------------------------------------------------------------|
| ◆ Audio cable off or connection properly | Confirm connected with the corresponding input port |
| ◆ Volume adjustment was closed | Reset the volume control and adjust to a proper position. |
| ◆ HDMI cable poor Connected | Check the quality of cable, or change cable and have a try |
| ◆ No sound after switch video signal | Check whether there is an AUDIO signal input in AV Mode. |

■ **Remark:**

★If there are still other problems, please contact with our related technical persons.

★If there are changes without prior notice.
